Export Readiness Online Workshop Series Topics

Export Marketing Strategy

Overall objectives: How to develop a strategy for market access services, using market research.
Topics: Market research to develop your strategy, segmentation and selection, company gap analysis, export marketing plan and internationalisation strategy.

Compliance + Logistics

Overall objectives: What to take into account to make products export-ready (meeting market access requirements) and how to comply with international market requirements and standards.
Topics: Product development, legal requirements, additional standards/CSR and advice on logistics (incoterms, transport/packaging, customs, warehousing and insurance)

Trade Fair participation

Overall objectives: How to prepare and execute trade fair participation successfully. What does trade fair participation entail and what resources are needed.
Topics: Tips for preparation of participation at a trade fair (before, during and after), how to find buyers.

Marketing, Sales and Contracting

Overall objectives: What digital marketing is about, define a strategy and/or to fill in any gaps in this regard. Which resources are needed for follow-up international sales and contracts.
Topics: Digital promotion, sales and negotiation, brief advice on contracts
